Customer Reviews

I bought this for my 5-year-old daughter to enhance her reading skills, and she had no trouble at all repeating after me thanks to the large text and simple sentences. The pictures were good and the

information was accurate. It dwelled quite a bit on non-firefighting vehicles and rarely used fire vehicles; I wish it had gone into a little more depth on the different types of fire suppression vehicles, such as engines, ladders, and brush trucks.

I love this book. I gave it to my four year old nephew for Christmas. It is full of great educational facts about rescue vehicles. The graphics are amazing and the words are easily commendable but not overly simplified. Would buy again for other gifts in the future.

I bought this book and another book called All Aboard Fire Trucks for my 3 year old son because he loves firetrucks. He loved them and loved looking at all the different kinds of vehicles. Very good book to read at nap time or bed time for your little adventurer. Very colorful and educational.

my grandson loved all the noise and lights. To my dismay the center front wheel broke off, and much to my Grandson's chagrin it is no longer a hit with him, as he keeps referring to the broken wheel, don't know what to do about it. He is four and loves fire trucks and police cars. I also purchased a police car, so far it is all intact.

My 2-3 year old son eats these books up. They are a great addition to the old-school Mighty Machines videos, which are our household favorite.

My 5 year old son loves Fire Trucks, so he loved this!

Our future firefighter (5 year-old-grandson) really loves the big colorful pictures and simple text in this book. He "reads" it over and over again. Great way to teach about rescue heroes.
