Customer Reviews

I loved the way the book shows all the different types of leaves. My daughter did NOT want to read these again this year as they were mixed in with our Halloween books, and these are just about LEAVES! This would be better in late September right before a leaf hunt walk.

Just in time for Fall, this adorably illustrated story shows kids about the variety of brightly colored leaves that fall from the various trees around them. This is a fun story that engages kids as the story can easily be sang or read to the tune of The Wheels on the Bus. This is a great addition for any home, preschool or early elementary school classes, as kids learn more about fall, their colors and different types of leaves.

Great children's Story. Beautiful pictures.
