Terrible quality. This looks basically like someone typed up a lesson in a word document, inserted a picture (not always true to what the final product would look like) and sent it to publishers - it is not the nicest looking curriculum. It feels like something a church or parent threw together for teaching their own kids, but is nowhere near the standard of material that you can find through most reputable publishers. The crafts and activities, are not very exciting. Very disappointed. I was hoping to use this for our church, but wouldn't. There is no quality lesson here to back up the catechism questions. It is really pretty boring in terms of both teaching appeal and content. Put a few words into a search engine online, and you will find way, way better materials for free. Shame, because the idea is wonderful. Would like to see the authors collaborate with others specialized in children's Christian Ed to enhance this.

This is a great book. The activities are easy for you to take your children through and you can do as

little or as much as you think your child is ready for.

easy to follow for novice sunday school teacher

Excellent
