Customer Reviews

Love the DK workbooks, I am a teacher and currently home schooling a 2nd grader, I use the DK workbooks often, they always cover more in any topic on one worksheet than any other workbook I've purchased.

This is a great book for my seven year old tutee. He is very interested in being the first and the best in his class. I started tutoring him when he was two years old and only spoke Spanish. Providing him books and educational toys have helped him accelerate his academic growth. He is very motivated and that propels him to the top of his class. Although his parents speak a foreign language at home, he is an eager learner and loves to outdo anybody in his class. He wants to be the first in everything. His older brother and he both want to be the first generation Americans to graduate college in the USA. In their homeland, many relatives are college educated and doing well.

Purchased for my incoming 2nd-grader and she has really enjoyed the practice. Some of the sections are a little confusing (like a long oo sound?) but she worked through it and enjoys doing a few pages a day to keep her skills sharp.

We love these DK Workbooks when my kids are on break from school. They are easy to use and seem to be on grade level. They help keep them in good habits even when they're not in school. I don't ever have to fight to get my kids to do them. We also bought this one: DK Workbooks: Math, Second Grade
