Customer Reviews

Probably the most anticipated package of the year. It had me checking the mail every 15 minutes and checking the "tracking" function by the item. And I have to say I was satisfied with a few hours of good reading. I've only read volumes preceeding these and seen only a few random episodes when it had hit the television as well as the episodes from the beginning up to the second half of the chunin exams. So needless to say, I'd been a hooked sucker to the series. The artwork feels a little "cleaner" than his earlier works. However it sacrifices a bit of the human feel in his drawings, which it still clings onto. The art is still very much shonen with a variety of drawings for the eyes and his exceptional skills at bringing the action in the story to life. He also toys with his skill set with little nicknacks here and there for each of the characters truly defining personality. As for the story, Naruto is still off in the second part of the chunin examinations with Sasuke and Sakura. There another spy among them is revealed to the audience but not to any of the characters. Later, most all

the characters bust into the third part of the examination, and are forced to go through "preliminaries." This sets up a few character development points showing off some freaky characters and a couple dramatic battles. The first shows the blooming rivalry of Inu and Sakura, while later Hinata and Neji- both of the Hyuga clan, however in separate branches, face off, bringing out a little spark of romance between Hinata and Naruto (personally, I'd like to see them together soon! haha). The copy I received was alright. I can't complain too much for half price.
