Great book for learning these as well as some CSS

Great book as it was very cheap. You can tell that it was used but that's exactly what was expected.

I needed this book for a Intro to Web Design college class.After 3 classes I fear to know what the non intro web class looks like.Great book , excellent shape for used condition.

Shipped brand new in less than one week. significantly cheaper than what it would be to purchase in the school store.
