Customer Reviews

Whether your young one is just beginning to read, learning letters, or can read already read to younger siblings, Noah and the Ark is a sweet read! While reading these "I Can Read" Books to my 4 year old, my 8 year old listens in, even offering to read the books to his brother. I highly recommend these Beginner Bible books to anyone wanting to read a light yet accurate versions of Bible stories to their children.

My grandsons 5 & 7 need books to learn to read. This is perfect for the 7 yr old and we use it for the 5 yr old to learn his sight words and he loves to hear bible stories! Plus these are what he will learn to read with also!

These little books are great. They are well written so that the youngest, or oldest, can easily understand them. The translation appears to be very accurate and the colors are great. And the price is wonderful. What a treat.

These I Can Read paperbacks work well with beginning readers. I took it on a mission trip and left it there, hoping children can use it to help learn English.

I added this book to my kindle for my 5 year old grandson to read. It's perfect for his age and they did a really good job telling the story of Noah.

First book on kids kindle that is their Christmas gift. Now, the first thing they can do is read their favorite Bible story on Christmas morning.

It's a great book. However, I was expecting a hard-cover book (I have some books from the series and they're hard-cover). Still great for kids!

This is such a good book for students or children to learn and read on their own about Bible stories. This book is Accelerated Reader.
